**COMMENTS:** When this “Dictionary” was first started, it was done primarily as an aid for the Security Threat Group Officers in the Texas Department of Criminal Justice (TDCJ). This “Dictionary” has since continued to grow from approximately 30 pages in 12-pitch font to this monster of 168 pages in 11-pitch font.

The gangs, cliques and other groups continue to change the meaning and usage of their words in an attempt to mislead authorities in what they are attempting to accomplish. This book only succeeds with the help of everyone who receives a copy of it. Currently we mostly utilized interpretations by the Security Threat Group Officers assigned throughout TDCJ. We are also using other sources, which include the Attorney General’s gang web site and others.

What we wish to do is incorporate information from any person or agency that has located or confirmed words or signs that are unique to a given set or group. This in turn will allow everyone to benefit from this information. If you have something of interest that you feel should be included in the “Dictionary,” please send it to us at the following:
